

PPQ's Supply List

This class is designed to assist you with 'finishing' any one or more of your projects. While I have no great sense of urgency to do this, I know some of you do so here goes;

You will need to bring to class:

blocks (to plan a setting)
unfinished quilt top (to plan borders)
An idea on paper (not started)

Or whatever you wish to work with. In addition you will need to bring necessary fabrics to complete the projects. Setting fabrics, sashing, borders or whatever you choose.

I also recommend you bring your favorite rulers (see below), all rotary cutting equipment and sewing machine (if you plan to sew). You could spend this time planning and cutting only.

Please feel free to bring antique blocks and more than one project. As time permits we will work through all options.

I highly recommend the Nifty Notions® Side Set Triangle. This ruler can be pre-ordered online at www.KayeEngland.com and brought to class, or by emailing Kaye at kaye@kayeengland.com.

This class offers considerable options on your settings and assumes that you will have blocks pre-made.
