

## Ruler Conversion Chart For Somewhere in Time

This chart will send you to the specific page and unit # and then ask you to cut a specific size strip as all the specialty rulers work from a strip set. You would then lay the ruler on the strip to cut the needed unit. This information will only be useful if you own the book or pattern. You would then just store this with the book and when you were ready to work on a block, you could then decide which method you prefer at that time.

**TIP: If I need a light and a dark half square triangle that will sew together, then I place the strips right sides together to cut the unit. This way it is ready to go to the machine and doesn't require further handling. The quarter square ruler doesn't have a preference on cutting one at a time or more than one.**

Options and choices make patchwork so much more specific to our needs. Please note that each ruler comes with specific directions as to how it is to be used.

Happy Piecing!!!  
Kaye

	<b>Unit</b>	<b>Cut</b>	<b>Ruler</b>
Page 5	B	3" strips	Half Square
Page 7	F	2" Strips	Half Square
	G	3 1/2" strips	Quarter Square
